Thank you very much,

We'll use this as a base to finalize this presentation by the end of the day.

Please let us know if you have any other thoughts to bring this together.

Tim and Andy,

Here are my additions for you to edit/delete or whatever you choose.

When you view it, please do so in Slideshow Mode because I animated the maps as my best short-term option for contouring the maps.

Thanks,  
John

Andy,

I put on a pretty template and made some adjustment hopefully not offending any of your sensibilities. I will come by and chat at 11 AM if that works for you.

Tim,

Here is what I've got right now.

We need John to add more on the soils toward the end.

Please change it as you see fit. Other folks can add more too please.

Thank you,

Andy

Andy,

I would organize:

1. Title
2. Background Context (2-3 slides)
3. Research Questions (1 slide)
4. Methods (2-3 slides)
5. Preliminary Results (2-3 slides)
6. Summary
7. Next Steps

A couple of thoughts for your consideration on slide content:

Slide 0. Add "preliminary findings" to title

All,

Tim has asked us to prepare a briefing on the results so far for New Jersey DEP program. It may actually be two briefings, one for R2 senior folks and another for ORD - I'm not sure.

If you could please send me any slides or data summaries you may have from any of our previous NJ DEP presentations I'll put together a basic outline for this talk.

I think we're mainly looking for the water data for the legacy materials with some evaluation of the percent branching for PFNA.

I've attached a draft of a draft above. Please send me what you can.

Thank you very much,

Andy

Andy,

We talked a while ago about the need to pull together a high-level briefing on what we are finding in NJ. As you know, Nidal has schedule a briefing for R2 senior management for 9/25. Jennifer OZ is also asking for a briefing to her and Program Offices (as yet unscheduled). It was my understanding that you were going to pull a draft together. Can you let me know where you are with this?

Thanks.

Tim
